

ENVIRONMENTAL POLICY STATEMENT

Wessex Demolition & Salvage Ltd provide a professional demolition service, including crushing and recycling of aggregates and materials.

Wessex Demolition is committed to minimising the environmental impact of our business operations through good management and by constantly monitoring and improving our environmental performance.

This policy commits our company to:

- Continuously improve our environmental performance and integrate an environmental management system into our business operations.
- Meet or exceed all environmental legislation that relates to our Company.
- Manage waste generated through our business operations by reducing, re-using or recycling a minimum of 95% of the waste we generate.
- Improve the environmental efficiency of our transport and travel.
- Train and encourage staff to participate actively in the protection of the environment and promote a culture of environmental awareness.
- Continually monitor site waste disposal issues and ensure continued compliance with current legislation.
- Control noise and dust pollution to minimise its effect on the local environment, such as businesses, the general public and the natural habitat.
- Seek to ensure that all products and services supplied or provided by third parties can be stored, handled, used and disposed of in a manner which safeguards the environment.
- Regularly review and update this policy as necessary, taking into account changes in legislation, technology and public concerns.
- In line with the SME Climate Commitment – Halve our greenhouse gas emissions before 2030, achieve net zero emissions before 2040 and disclose our progress on a yearly basis.
